Property Walk Recorder Quick Reference

Build 22 field checklist

Review Walk does not upload. The walk is finished only when it reads Uploaded & Processed.

START	Select property, evaluator, Process, and Visit Type. Enter a real address for an unregistered visit.
VERIFY	Speak and confirm that the microphone is verified and narration is being captured.
ROOM	Tap the current room before narrating or photographing. Use numbered bedrooms and bathrooms.
NARRATE	State the address, room, visible condition, uncertainty, correction, and required follow-up.
PHOTO	Use the in-app camera. Narration continues while the camera is open.
PAUSE	Pause only for a real break. Resume and verify the microphone before speaking.
REVIEW	Check narration, photographs, and room labels. Nothing uploads yet.
RESUME	Add missing evidence to the same Walk ID, then review again.
DESTINATION	Confirm registered folder, reselect property, paste a folder link, or use Recovery Inbox.
FINISH	End Walk & Upload only when no more evidence is needed. Keep the page open.
PROCESS	Finish only when status reads Uploaded & Processed.

Recovery

Interrupted walk

My Walks - Continue Walk, or Review Captured to inspect what the phone retained.

Upload stopped

Reconnect and select Retry Upload. Completed items are not duplicated.

Processing stopped

If Drive upload is safe, select Retry Processing. Do not upload the media again.

Folder missing

Use Change, manual Drive-folder override, or Recovery Inbox. Do not leave the walk trapped on the phone.

> Never clear browser site data or delete a local walk while recovery is pending.

Before Leaving

- Microphone capture was verified.
- Every room was selected and announced.
- Bedrooms and bathrooms were numbered consistently.
- Material conditions have overview and detail photos.
- Narration and room labels were checked in Review.
- The destination is correct.
- Status reads Uploaded & Processed.

Operating standard: more reviewable evidence is preferable to silent omissions. State material uncertainty so the appropriate reviewer can confirm, revise, or disregard it.
